sharpen your senses!

A SOLID TRADITION OF QUALITY

For us, the manufacture of quality products has always represented both a commitment and a goal. At Möbius+Ruppert, "Made in Germany" really means conceived, designed, and produced in Germany. That is the only way we can assure the quality of our many sharpeners and drawing instruments down to the smallest details, and make sure that we reliably deliver to the highest standards for our customers.

- Company-produced blades with an extremely long service life, corrosion protection, high HRC surface hardness and ideal pencil guidance
- Innovative use of a variety of materials: plastic, metal, wood, bio materials
- Almost all drawing instruments have accurate, long-lasting embossed markings
- All products are free of contaminants and plasticisers
- All products are available with customized designs on request

Möbius+Ruppert were awarded the TOP 100 quality seal in 2002 for the development of a particularly innovative sharpener.

BRANDED QUALITY MADE IN GERMANY

Sharpening, drawing, cutting – for perfect results every time you can rely on us: Möbius+Ruppert.

As a family-owned producer of branded goods now in the fourth generation, we have been creating innovative, design-orientated products the market wants since 1922.

Whether it's a manual sharpener, reduction scale or a paper trimmer, as simple as these products may seem, our special strength lies in reinventing them constantly for our customers for more than 90 years.

Every year we dream up practical designs, use innovative materials and optimize our processes – constantly searching for new features which will make these familiar activities surprisingly simpler, easier and more ergonomic for the user.

In addition to our products, our personal discussions with customers and business partners also show that we put every last ounce of effort into our work. Sharpen your senses: This is a process that calls for concentration, sensitivity and curiosity. You can experience it all in this catalogue.

Join us on a journey through our world of products and discover sharpeners, drawing instruments and cutting machines for every age and need.

Let us inspire you!

KINDERGARTEN & PRESCHOOL

SCHOOL & HOBBY

OFFICE & STUDIO

GREEN OFFICE

POINT OF SALE

JUST FOR KIDS

Just like pencils, sharpeners for preschoolers and kids in kindergarten must meet special requirements. Möbius+Ruppert does this with sharpeners that are just right for children.

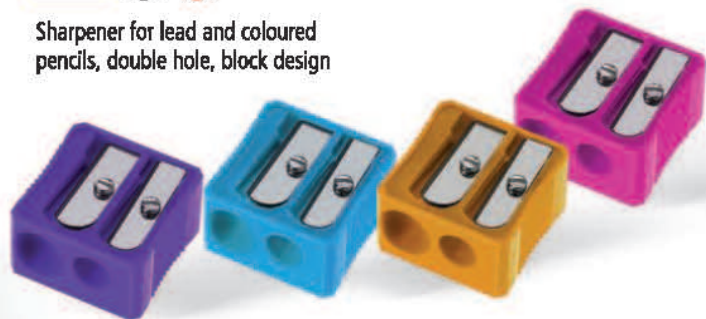

ERGONOMIC AND PRACTICAL

Möbius+Ruppert offers sharpeners specially designed for sharpening different diameter coloured pencils, easily yet precisely.

0332

Sharpener for lead and coloured pencils, double hole, block design

0959

TOP TRIO SWING®

Container sharpener for pencils and crayons, three hole, with integrated plastic sharpener, twist closure

Möbius+Ruppert received the ISPA & Innovation Award in 2006 for three hole sharpener TOP TRIO SWING®

THREE IN ONE

The sharpener for pencils in three different diameters for sharpening all normal lead, coloured and jumbo pencils.

0969

SPACESHIP

Three hole container sharpener for lead, coloured and jumbo pencils, twist closure with extra marking for lead and coloured pencils, with integrated plastic three hole sharpener, ergonomic shape

PAPER TRIMMERS FOR CREATIVE ACTIVITIES

With a 52 cm cutting length, this rotary trimmer is specially designed for larger items like construction paper. It can also make perforations and a wave cut.

0958  

TRIO SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

0957  

TRIO SWING®

TRIO SWING® is also available as a single hole with large diameter sharpener (colours same as 0958)

0333 

Container pencil sharpener, single hole, integrated plastic sharpener with injection-moulded blade, closable

6752

ROLL Cat® Premium Line

Cutting length 520 mm. Details on page 27.

FOR EXTRA THICK COLOURED PENCILS

We developed these sharpeners for XXS artists with XXL coloured pencils: Small and compact for pencil cases or with ergonomic shaped shavings collector. A specially designed cone sharpens the lead to a stable, compact point.

0316 

MAXI

Sharpener for coloured pencils, wedge design, for extra fat pencils

0967 

SPACESHIP 2

Container sharpener for extra fat coloured pencils, single, integrated plastic sharpener, sliding safety closure

SCHOOL & HOBBY

Have fun getting it done - that's what matters for school and hobbies. And that's exactly what we encourage, with clever products, a wide variety of materials and surprising designs. Take your inspiration from us and invite your customers to enter a world of colours, shapes and possibilities they never dreamed of.

ergo swing

With its ergonomic shape, the ERGO SWING® snuggles right into a child's hand. The extrasafe pressure-point cover lock keeps it shut in the school bag. The sharpening hole has a folding closure for the same purpose, which automatically moves down when a pencil is pushed into the hole. An integrated metal sharpener and two hole sizes ensure the high sharpening quality you expect.

SLENDER WITH ERASER

A separate compartment keeps the integral eraser safe from lead dust - an easy way of ensuring clean, neat drawings.

0945

ELLIPSTICK SWING®

Container sharpener, single hole, with integrated metal sharpener and eraser, designed specially for school pencil cases

0955

STARDUST

Container pencil sharpener, single hole, with integrated metal sharpener and eraser, sliding closure prevents shavings falling out, flat, compact shape

0948

ERGO SWING®

Ergonomic container sharpener with folding closure, for lead and coloured pencils, with integrated metal sharpener

Top of trend, in a selection of today's colour combinations - NEO LIGHT combines form and function. Full-featured, with transparent flip top, integrated metal sharpener and two hole sizes.

NEO
light

0902

NEO LIGHT

Container sharpener with flip top for lead and coloured pencils, with integrated metal sharpener

TOP UNO AND TOP DUO

Our two top sellers with high-quality integrated metal sharpeners, in bright new colours.

0351

TOP UNO®

Container pencil sharpener, single hole, with integrated metal sharpener, closable

0355

TOP DUO®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, closable

0356

LITTLE QUATTRO SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, closable

CLASSICS AND SPECIAL MODELS

The Möbius+Ruppert line of sharpeners for school & hobby starts with proven classics like sharpeners made from plastic material in single and two-hole versions without housing, continues with sharpeners that fit nicely in a pencil case, and wraps it all up with handy, colourful container sharpeners.

0304 

Pencil sharpener, single hole, block design

0306 

Pencil sharpener, single hole, block design, injection-moulded blade

0317 

OLIVE

Pencil sharpener, single hole

TOP DUO WITH BUILT-IN PLASTIC SHARPENER

The low-cost alternative to the classic TOP DUO® comes in a contemporary mix of shifting colours.

0344  

TOP DUO®

Container sharpener for lead and coloured pencils, double hole, with coloured integrated plastic sharpener, closable

0338 

Pencil sharpener, single hole, block design, injection-moulded blade

0311  

Sharpener for lead and coloured pencils, double hole, wedge design

0392 **Xtreme**

Pencil sharpener, single hole, to clip on a pencil tip. Can be used as a pencil extender and as a practical protector cap

0392 3100 **3in1 Xtreme**

These are the brightly coloured and very practical cap sharpeners that put you in a good mood. The advantages of the 3in1 Xtreme: small and handy, they work just as well as bigger sharpeners. Xtreme protect the pencil tips; they can even be used as a pencil extender. They are practical, clean, and – in combination with the elegant pencil with eraser tip – always ready for use.

0908  **ELLIPTIC LINE®**

Container pencil sharpener for lead and coloured pencils, double hole, with integrated plastic sharpener

0909 **EASY LIGHT**

Container pencil sharpener, single hole, with integrated plastic sharpener

0914 **RONDO RIB**

Container pencil sharpener, single hole, with integrated plastic sharpener, screw-on lid

3in1 Xtreme
HB 2

CONTAINER PENCIL SHARPENERS

The ideal solution for individual sharpening needs - Möbius+Ruppert provides container pencil sharpeners for the needs and preferences of all ages. The "for Lefties" edition was developed especially for left-handers and includes a ruler with a reverse-running scale.

0343

MINI ELLIPTIC SWING®

Container pencil sharpener, single hole, with integrated metal sharpener

0928

ELLIPTIC SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

0938 0050

ELLIPTIC SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, extra large shavings container

0916

ELLIPTIC SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener and folding closure, extra-large shavings container

0938 0300

ELLIPTIC SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, soft touch feel

0953

TRIO SWING®

Container pencil sharpener, single hole, with integrated metal sharpener

0924 0050

QUATTRO SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

0923 0050

QUATTRO SWING®

Container pencil sharpener, single hole, with integrated metal sharpener

ESPECIALLY FOR LEFTIES

The proven QUATTRO SWING® series design with snap cap is now available in a special left-hander version.

0924 0090

QUATTRO SWING® for Lefties

Container sharpener for left-handers, for lead and coloured pencils, double hole, with integrated metal sharpener

You can find the ruler to go with it with reverse-running scale on page 13.

HIGH QUALITY DRAWING INSTRUMENTS FOR SCHOOL USE

Versatile, practical, precise: The Möbius+Ruppert line of drawing instruments for school & hobby includes rulers, geometric triangle protractors, set squares and templates in various designs and materials. A 4-piece set in a handy case meets basic school needs with just one purchase.

1116 0000 clear, 16 cm

1116 0080 black, 16 cm

1120 0000 clear, 20 cm

Rulers for the use at school and office
Material: clear or coloured polystyrene

1116 0150 coloured, 16 cm

1130 0080 black, 30 cm

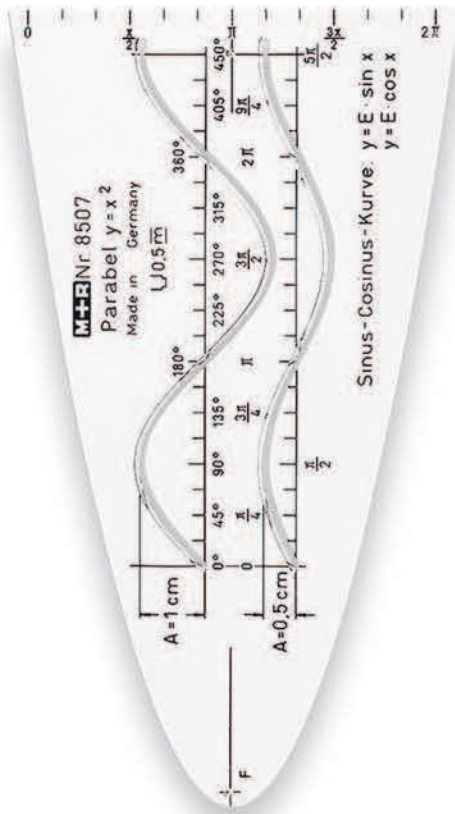

1130 0150 coloured, 30 cm

1130 0000 clear, 30 cm (Image)

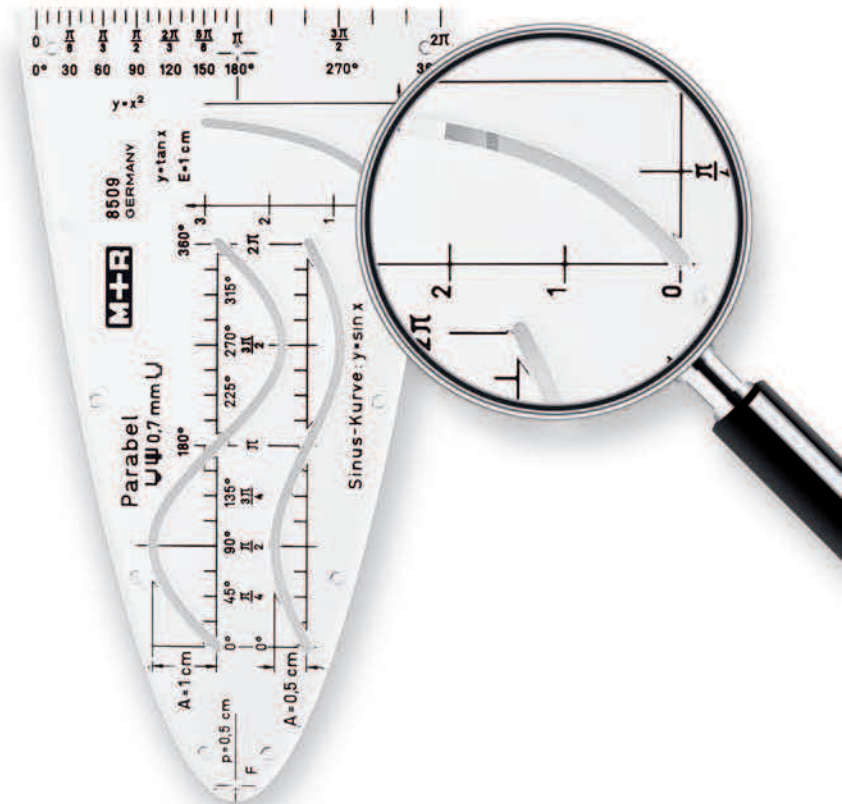

1140 0000 clear, 40 cm

1150 0000 clear, 50 cm

8507   123 x 70 x 2 mm

Parabola templates, standard parabola $y = x^2$, 2 sine-cosine curves, in plastic envelope
Material: clear acrylic

8509   123 x 70 x 1.8 mm

Parabola templates, standard parabola $y = x^2$, 2 sine-cosine curves and tangent, in plastic envelope
Material: clear polystyrene

RULERS FOR LEFT-HANDERS

The "for Lefties" series ruler has a reverse-running scale from right to left for convenient left-hand use. A perfect match for the left-handed sharpener on page 11.

1116 0090 16 cm

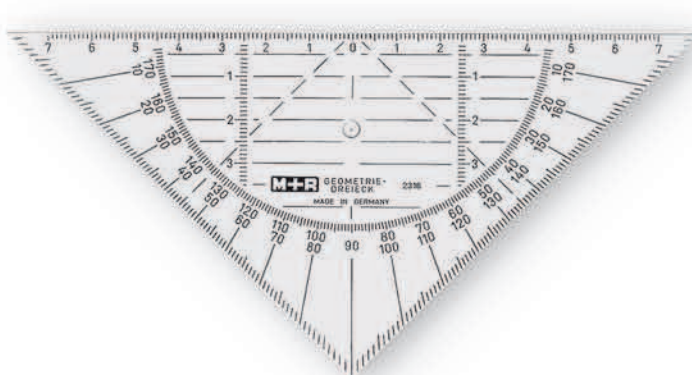

1130 0090 30 cm

Left-handed rulers,
 scale runs from right to left
Material: clear polystyrene

THOUGHT OUT DOWN TO THE DETAILS

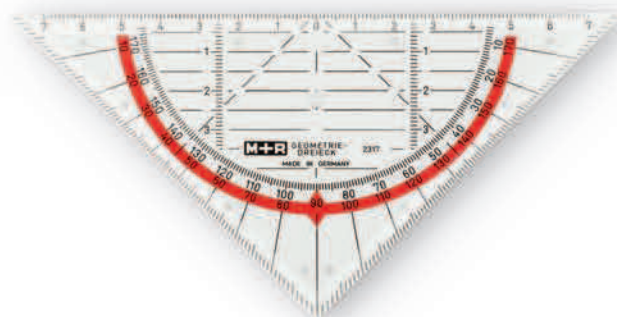

Scarcely visible yet thought out to the smallest detail - the high quality of the drawing instruments made by Möbius+Ruppert is evident not just in their durable and precise markings, but also details like bevelled edges and inking edges.

2316   Base 16 cm

Geometric triangle protractor, two-way scale, in plastic envelope

Material: clear polystyrene

CLEAN CUT - NEAT STACK

Our high quality paper trimmers ensure durable, accurate and consistently high-quality trimming, thanks to sophisticated technical details - and extremely stable, rigid cutting tables. These are made of aluminium in the premium segment, and of shock resistant plastic in the lower-cost range.

TRIM CAT® GUILLOTINE TRIMMER

As a table-top model, this high quality guillotine trimmer can be used for every kind of application. It is especially useful for laminated film - but produces the desired results on all other kinds of material for cutting.

- Cutting blades in high-quality steel with laser-hardened cutting edge
- Lower knife of ground spring steel sharpens the lever blade with every stroke
- Distortion-free cutting table in aluminium or shockresistant plastic with cm/inch scale markings and all customary formats
- Clamp for material to be cut and finger guard at cutting edge
- Cutting height up to max. 0.8 mm
- Cutting capacity: 8 sheets (80 g paper), 0.8 mm cardboard

6432 Cutting length: 320 mm (Image)

6426 Cutting length: 260 mm

Material: Aluminium cutting table

FOR YOUR SAFETY

TRIM CAT® guillotine trimmer for DIN A4 with folding security protection screen.

- Fold out safety guard
- Adjustable, lockable paper centring device
- Ergonomically-shaped cutting blade handle

6532 Cutting length: 320 mm

Material: Shock-resistant polystyrene cutting table

ROLL CAT®

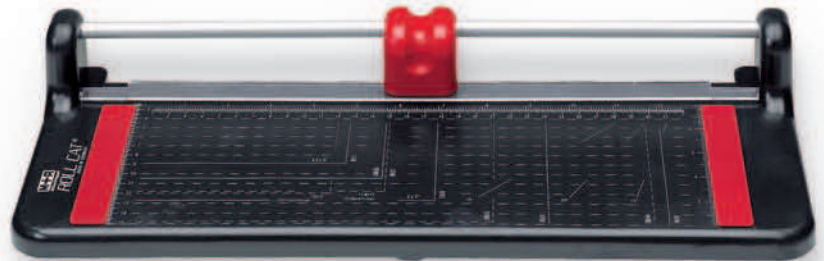

These table-top rotary trimmers have a very wide range of applications. They make light work of cutting laminated film and all other materials which can be cut.

- Self-sharpening high-precision circular blade in hardened steel
- Lower knife made of ground spring steel
- Safety cutting head
- Precision cutting thanks to sprung blade bearing
- Cutting possible in both directions
- Stable, smooth-running guide rail made of aluminium
- Distortion-free cutting table in aluminium or shock-resistant plastic with cm/inch scale markings and all customary formats
- Integrated paper clamp at the cutting edge to hold material to be cut in place
- Cutting height up to max. 0.6 mm
- Cutting capacity 6 sheets (80 g paper), 0.6 mm cardboard

ROLL CAT® Basic Line

6332 Cutting length: 320 mm

Material: Shock-resistant polystyrene cutting table

**ROLL CAT® Premium Line**

6832 Cutting length: 320 mm

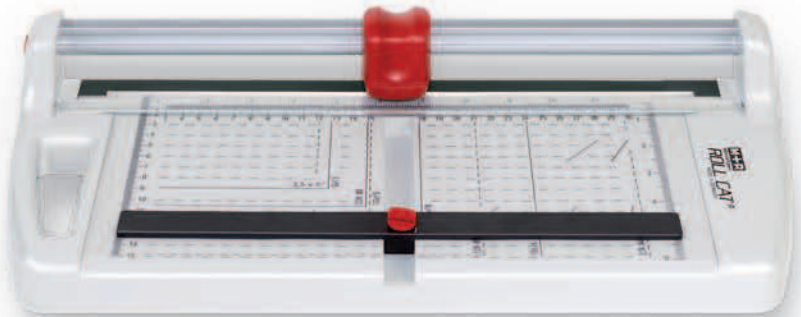

Material: Shock-resistant polystyrene cutting table, black or white (Image)

- Completely enclosed safety cutting head, easy to change
- Guide rail in extra-rigid aluminium
- Handle for easy transport and simplicity of handling
- Adjustable, lockable paper centring device

Accessories:

6823 Cutting mat plus Perforation cutting head

6813 Cutting mat plus Wave Cut cutting head

**ROLL CAT® Premium Line**

6726 Cutting length: 260 mm

6732 Cutting length: 320 mm (Image)

6746 Cutting length: 460 mm

6752 Cutting length: 520 mm

Material: Aluminium cutting table

- Guide rail in extra-rigid aluminium
- Completely enclosed safety cutting head, easy to change

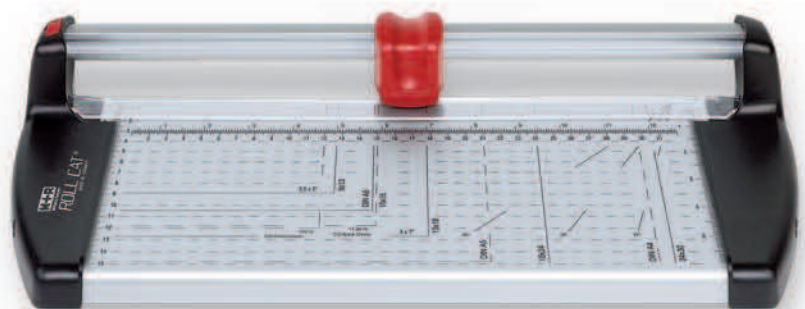

Accessories for 6732 (without image):

6723 Cutting mat incl. base plus Perforation cutting head

6713 Cutting mat incl. base plus Wave Cut cutting head

Accessories for all cutting lengths:

6704 Cutting table extension with paper stops

GREEN OFFICE

Good for the office, good for the planet - at Möbius+Ruppert we are constantly researching and developing ways to combine the two. Our Green editions use wood, cornstarch and recycled materials in their production. Once again, we see that quality products of quality materials can be made in harmony with nature.

Beechwood sharpener, for lead pencils, single hole, block design

0411  

Beechwood sharpener for lead and coloured pencils, double hole, block design

NATURALLY WOOD

Wood is a natural, self-renewing material. Our beechwood is untreated and sourced from European forests.

High quality wooden rulers, with metal insert, untreated
Material: beechwood

GREEN LINE & ECO EDITION

Sharpeners made of organic and ecological materials, for the good of the environment. At Möbius+Ruppert we're moving ahead on sustainability and environmental protection in two ways. One is the use of renewable materials, such as the bio material we use to make our GREEN LINE Series products. The other is the use of production waste to make the QUATTRO SWING® ECO EDITION products.

0938 0810  

GREEN LINE ELLIPTIC SWING®

The Green Line container pencil sharpener, double hole, made of bio material, with integrated metal sharpener

0990 0810

QUATTRO SWING® ECO

Container sharpener for lead and coloured pencils, double hole, made of recycled polystyrene, with integrated metal sharpener

RIGHT FOR THE JOB, IN THE RIGHT PRESENTATION

Depending on how you need them, you can get Möbius+Ruppert products individually packaged in blister packs or cases. We deliver container sharpeners in the practical box that also functions as a countertop display. We also offer displays to match special editions or individual motif editions.

EYE-CATCHER

Our individually designed boxes and displays are also suitable for countertop presentation.
