## BRANDED QUALITY MADE IN GERMANY

Sharpening, drawing, cutting – for perfect results every time you can rely on us: Möbius+Ruppert. As a family-owned producer of branded goods now in the fourth generation, we have been creating innovative, design-orientated products the market wants since 1922. Whether it's a manual sharpener, reduction scale or a paper trimmer, as simple as these products may seem, our special strength lies in reinventing them constantly for our customers for more than 90 years.

Every year we dream up practical designs, use innovative materials and optimize our processes – constantly searching for new features which will make these familiar activities surprisingly simpler, easier and more ergonomic for the user.

In addition to our products, our personal discussions with customers and business partners also show that we put every last ounce of effort into our work. Sharpen your senses: This is a process that calls for concentration, sensitivity and curiosity. You can experience it all in this catalogue. Join us on a journey through our world of products and discover sharpeners, drawing instruments and cutting machines for every age and need.

**Let us inspire you!**

### A SOLID TRADITION OF QUALITY

For us, the manufacture of quality products has always represented both a commitment and a goal. At Möbius+Ruppert, "Made in Germany" really means conceived, designed, and produced in Germany. That is the only way we can assure the quality of our many sharpeners and drawing instruments down to the smallest details, and make sure that we reliably deliver to the highest standards for our customers.

Möbius+Ruppert were awarded the TOP 100 quality seal in 2002 for the development of a particularly innovative sharpener.

- Company-produced blades with an extremely long service life, corrosion protection, high HRC surface hardness and ideal pencil guidance
- Innovative use of a variety of materials: plastic, metal, wood, organic materials
- All drawing instruments have accurate, long-lasting embossed markings
- All products are free of contaminants and plasticizers
- All colours and materials are suitable for contact with foodstuffs
- All products are available with customized designs on request

## Kindergarten & Preschool

**Easy and playful sharpening** – specially designed for little hands who are just getting started colouring and writing, and for their creative parents. We've put together an extensive assortment, with sharpeners for wax crayons, thin and super-thick coloured pencils, and for travelling.

## ERGONOMIC AND PRACTICAL

Möbius+Ruppert offers sharpeners and combination sharpeners specially designed for sharpening different diameter coloured pencils, easily yet precisely.

### THREE IN ONE

The sharpener for pencils in three different diameters for sharpening all normal lead, coloured and jumbo pencils.

0969

SPACESHIP

- ▶ Three hole container sharpener for lead, coloured and jumbo pencils, twist closure with extra marking for lead and coloured pencils, with integrated plastic three hole sharpener, ergonomic shape, stand-up function when shavings lid is closed

# JUST FOR KIDS

Just like crayons and pencils, sharpeners for preschoolers and kids in kindergarten must meet special requirements. Möbius+Ruppert does this with sharpeners that are just right for children.

## CLEANLY SHARPEN WAX CRAYONS

Their soft texture and intense colours make wax crayons ideal for small children. However, they lose their point quickly and then give only a broad stroke until an adult resharpens them. Now young artists can sharpen their crayons themselves. This sharpener is designed especially for wax crayons, and makes resharpening child's play. It includes an adapter to fit the opening to the thickness of the wax crayon.

0342  
WAXI

- Sharpener for wax crayons, single hole, with integrated point shaper and adapter for different diameters

0958  
TRIO SWING®

- Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

0957  
TRIO SWING®

- TRIO SWING® is also available as a single hole with **large diameter** sharpener

0959  
TOP TRIO SWING®

- Container sharpener for pencils and crayons, three hole, with integrated plastic sharpener, twist closure

Möbius + Ruppert received the ISPA & Innovation Award in 2006 for three hole sharpener TOP TRIO SWING®

0332

- Sharpener for lead and coloured pencils, double hole, block design

0333

- Container pencil sharpener, single hole, integrated plastic sharpener with injection-moulded blade, closable

## CUTTING MACHINE FOR CREATIVE ACTIVITIES

With a 52 cm cutting length, this rotary trimmer is specially designed for larger items like construction paper. It can also make perforations and a wave cut.

6752  
RollCat Premium Line

- Details on page 29.

## FOR EXTRA THICK COLOURED PENCILS

We developed this hand sharpener for XXS artists with XXL coloured pencils. It features a protective cover over the blade. A specially designed cone sharpens the lead to a stable, compact point.

0316  
MAXI

- Sharpener for coloured pencils, wedge design, for extra fat pencils

## School & Hobby

**Have fun getting it done** – that's what matters for school and hobbies. And that's exactly what we encourage, with clever products, a wide variety of materials and surprising designs. Take your inspiration from us and invite your customers to enter a world of colours, shapes and possibilities they never dreamed of.

## ERGONOMIC AND SAFE

Innovative spirit and creativity have always been the driving force behind our success. For young creatives we've developed the ERGO SWING®, an ergonomically designed container sharpener that fits perfectly in little hands. To keep shavings and dust on the inside, the sharpening hole has a folding closure. The cover is held shut by a pressure-point lock. The NEO LIGHT for teenagers is also closable with a flip top, and enters the scene in fashion colours and a semi-transparent design.

0948

ERGO SWING®

► Ergonomic container sharpener with folding closure, for lead and coloured pencils, with integrated metal sharpener

With its ergonomic shape, the ERGO SWING® snuggles right into a child's hand. The extra-safe pressure-point cover lock keeps it shut in the school bag. The sharpening hole has a folding closure for the same purpose, which automatically moves down when a pencil is

pushed into the hole. An integrated metal sharpener and two hole sizes ensure the high sharpening quality you expect.

0902

NEO LIGHT

► Container sharpener with flip top for lead and coloured pencils, with integrated metal sharpener

Top of trend, in a selection of today's colour combinations – NEO LIGHT combines form and function. Full-featured, with transparent flip top, integrated metal sharpener and two hole sizes.

# CLASSICS AND SPECIAL MODELS

The Möbius+Ruppert line of sharpeners for school & hobby starts with proven classics like magnesium sharpeners in single and two-hole versions without housing, continues with sharpeners that fit nicely in a pencil case, and wraps it all up with handy, colourful container sharpeners.

**0200 0700**  

- ▶ Pencil sharpener, single hole, block design, with 2 replacement blades, in case

**0201**  

- ▶ Pencil sharpener, single hole, wedge design

**0211**  

- ▶ Sharpener for lead and coloured pencils, double hole, wedge design

**0211 0700**  

- ▶ Sharpener for lead and coloured pencils, double hole, wedge design, with two replacement blades, in case

**0304**  

- ▶ Pencil sharpener, single hole, block design

**0305**  

- ▶ Pencil sharpener, single hole, block design

**0306**  

- ▶ Pencil sharpener, single hole, block design, injection-moulded blade

**0317**  

- ▶ Pencil sharpener, single hole, 'olive' design

## TOP DUO WITH BUILT-IN PLASTIC SHARPENER

The low-cost alternative to the classic TOP DUO comes in a contemporary mix of shifting colours.

**0344**  
**TOP DUO®**  

- ▶ Container sharpener for lead and coloured pencils, double hole, with coloured integrated plastic sharpener, closable

## TOP UNO AND TOP DUO IN NEW COLOURS

Our two top sellers with high-quality integrated metal sharpeners, in bright new colours.

**0351**  
**TOP UNO®**  

- ▶ Container pencil sharpener, single hole, with integrated metal sharpener, closable

**0355**  
**TOP DUO®**  

- ▶ Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, closable

**0356**  
**LITTLE QUATTRO SWING®**  

- ▶ Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, closable

**0311**  

- ▶ Sharpener for lead and coloured pencils, double hole, wedge design

**0324**  

- ▶ Pencil sharpener, single hole, round

**0338**  

- ▶ Pencil sharpener, single hole, block design, injection-moulded blade

**0907**  
**ELLIPTIC LINE®**  

- ▶ Container pencil sharpener, single hole, with integrated plastic sharpener

**0941**  
**RONDO SWING®**  

- ▶ Container sharpener for lead and coloured pencils, double hole, with integrated plastic sharpener, extra large shavings container

**0914**  

- ▶ Container pencil sharpener, single hole, clamped blade, with integrated plastic sharpener, screw-on lid

**0909**  
**EASY LIGHT**  

- ▶ Container pencil sharpener, single hole, with integrated plastic sharpener

# CONTAINER & MULTIFUNCTIONAL PENCIL SHARPENERS

The ideal solution for individual sharpening needs – Möbius+Ruppert provides container pencil sharpeners for the needs and preferences of all ages. For teenagers we offer one-hole and two-hole sharpeners as well as chic multifunction sharpeners with integral eraser. The “for Lefties” edition was developed especially for left-handers and includes a ruler with a reverse-running scale.

**0343**  
**MINI ELLIPTIC SWING®**

► Container pencil sharpener, single hole, with integrated metal sharpener

**0357**  
**Little ELLIPTIC SWING®**

► Container pencil sharpener, single hole, with integrated metal sharpener, automatically-closing opening, compact design

**0938 0330**  
**ELLIPTIC SWING®**

► Container sharpener for lead and coloured pencils, double hole, Soft Touch feel, with integrated metal sharpener, container with Look-Thru function

**0916**  
**ELLIPTIC SWING®**

► Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener and folding closure, extra large shavings container

**0938 0050**  
**ELLIPTIC SWING®**

► Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, extra large shavings container

**0953**  
**TRIO SWING®**

► Container pencil sharpener, single hole, with integrated metal sharpener

**0923 0050**  
**QUATTRO SWING®**

► Container pencil sharpener, single hole, with integrated metal sharpener

**0924 0050**  
**QUATTRO SWING®**

► Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

## SLENDER, WITH ERASER

A separate compartment keeps the integral eraser safe from lead dust – an easy way of ensuring clean, neat drawings.

**0945**  
**ELLIPSTICK SWING®**

► Container sharpener, single hole, with integrated metal sharpener and eraser, designed specially for school pencil cases

**0955**

► Container pencil sharpener, single hole, with integrated metal sharpener and eraser, sliding closure prevents shavings falling out, flat, compact shape

**0928**

**ELLIPTIC SWING®**

► Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

**0929**

**ELLIPTIC SWING®**

► ELLIPTIC SWING® is also available as a single hole sharpener

## Office & Studio

Creating a blueprint for quality – that's one of the most important goals in the office and studio. True quality is reflected in the details, which is why every detail counts here. Give your customers the best possible tools, so that they can concentrate on what really matters.

## SHARPENERS THAT DELIVER QUALITY AND AESTHETICS

Whether elegant in brass or classic in magnesium, our open sharpeners for office and studio not only look good, they're also very practical and precise. Our professional product line ranges from single, double and triple hole versions to replacement blades.

0604

► Brass pencil sharpener, single hole, 'bullet' design

0602

► Brass sharpener for lead and coloured pencils, double hole

0603

► Brass sharpener for lead and coloured pencils, double hole, wedge design

0202

► Pencil sharpener, single hole, bed design

0205

► Pencil sharpener, single hole, rounded wedge design

0207

► Pencil sharpener with two additional special functions

0200

► Pencil sharpener, single hole, block design

0220

► Pencil sharpener, single hole, block design, with two replacement blades

0100

► replacement blades

### FOR LEAD AND COLOURED PENCILS

This combination ensures fine, compact tips, especially for coloured pencils and artists' pencils with delicate leads.

0212

► Sharpener for lead and coloured pencils, double hole, wedge design, for lead and coloured pencils of normal diameter

# CONTAINER SHARPENERS AND MORE FOR THE OFFICE

Our office sharpener line incorporates timeless classics, award-winning designs and innovative materials solutions. We also offer electric sharpeners, special sharpeners for mechanical pencil points, and a pen-shaped stamp moistener.

0931

- ▶ Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, patterned glass jar, screw-on lid

0900

- ▶ Container pencil sharpener, single hole, with integrated metal sharpener, screw-on lid, nostalgic appearance

0938 0100

ELLIPTIC SWING®

- ▶ Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener, soft touch

0950 0150

iLIGHT

- ▶ Container pencil sharpener, single hole, with integrated metal sharpener, folding closure, flat, compact design

0984

- ▶ Crank-style sharpener for lead and coloured pencils, quality cutter, high quality, solid die-cast housing, long cone for lead pencils, short cone for coloured pencils, selectable by knurled screw, large shavings container, with table mount

Produced by premium partners in Asia

0981

- ▶ Crank-style sharpener for lead and coloured pencils, quality cutter, transparent shavings container, rubber claws to protect the pencils, auto-stop when the pencil is sufficiently sharpened, long cone for lead pencils, short cone for coloured pencils, with table mount

Produced by premium partners in Asia

► T-squares, mm graduation, inking edges on both sides  
**Material:** transparent blue SAN (Styrene Acrylnitrile)

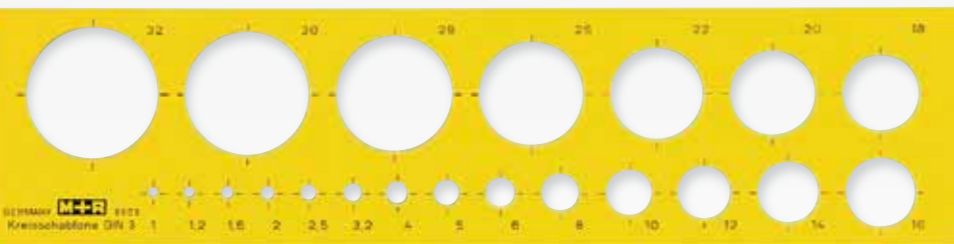

# PRECISION CAN'T BE COPIED

When the results depend on precision, you also need precision tools. Möbius+Ruppert templates have always met this need with their high quality in materials and workmanship.

**7083**

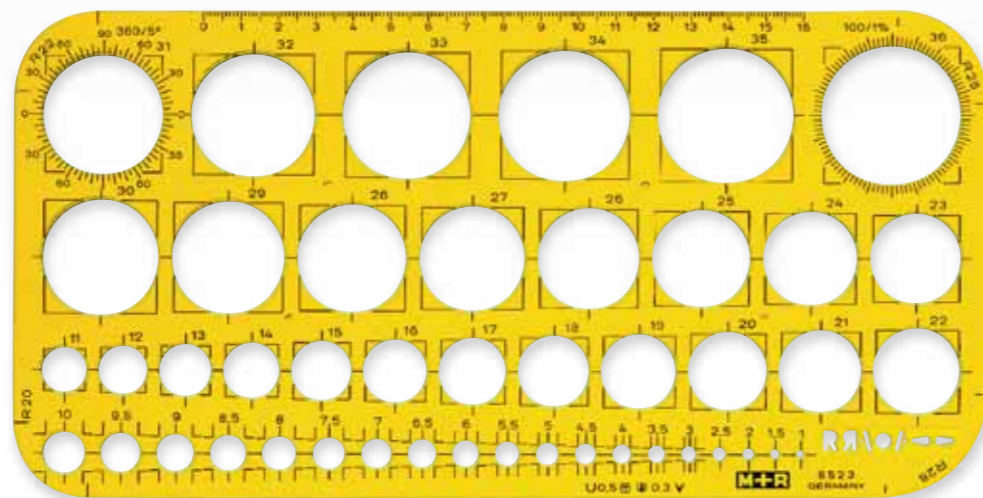

- French curve set, 3 parts, inking edges on both sides, in plastic envelope
- Sizes: 13 cm, 17 cm, 32 cm
- Material:** tinted polystyrene

**8503**

248 x 60 x 1.5 mm

- Circle template, complies with German Industrial Standard DIN 3, circles 1.0 to 32 mm, 6 to 22 mm with 2 mm increases, in poly bag
- Material:** transparent yellow shock-resistant polystyrene

**8523**

260 x 130 x 2 mm

- Circle template, circles from 1 to 36 mm, up to 10 mm with 0.5 mm increases, scale from 0 to 16 cm in mm graduation, with 360°/5 and 100/1% graduation, 4 corner radii R20, R22, R25, R28, in plastic envelope
- Material:** transparent yellow shock-resistant polystyrene

<b>2061</b> (Image)	15 cm
<b>2062</b>	20 cm
<b>2063</b>	25 cm
<b>2064</b>	30 cm

- Adjustable angles from 90° to 1°, in individual packing
- Material:** clear acrylic

<b>9202</b> (Image)	ISO	Letter size 2.5 mm	<b>9205</b>	ISO	Letter size 5.0 mm
<b>9203</b>	ISO	Letter size 3.5 mm	<b>9207</b>	ISO	Letter size 7.0 mm

## SPOT ON

Standardized colour coding provides information about the tip length of suitable ink pens and fineliners.

- Lettering stencil for upright letters in compliance with ISO 3098.B, flexible, H profile, in plastic envelope
- Material:** transparent yellow polycarbonate

<b>8603</b>	Letter size 3.0 mm	<b>8606</b>	Letter size 6.0 mm
<b>8605</b> (Image)	Letter size 5.0 mm		

- Lettering stencil for bold, upright, medium-spaced lettering in compliance with German Industrial Standard DIN 1451, flexible, H profile, in plastic envelope
- Material:** transparent green polycarbonate

# CLEAN CUT – NEAT STACK

Our high quality paper trimmers ensure durable, accurate and consistently high-quality trimming, thanks to sophisticated technical details – and extremely stable, rigid cutting tables. These are made of aluminium in the premium segment, and of shock-resistant plastic in the lower-cost range.

## TRIM CAT® Guillotine trimmer

As a table-top model, this high quality guillotine trimmer can be used for every kind of application. It is especially useful for laminated film – but produces the desired results on all other kinds of material for cutting.

- ▶ Cutting blades in high-quality steel with laser-hardened cutting edge
- ▶ Lower knife of ground spring steel sharpens the lever blade with every stroke
- ▶ Distortion-free cutting table in aluminium or shock-resistant plastic with cm/inch scale markings and all customary formats

- ▶ Clamp for material to be cut and finger guard at cutting edge
- ▶ Cutting height up to max. 0.8 mm
- ▶ Cutting capacity: 8 sheets (80 g paper), 0.8 mm cardboard

6432 (Image)	Cutting length: 320 mm
6426	Cutting length: 260 mm

**Material:** Aluminium cutting table

## FOR YOUR SAFETY

TRIM CAT® guillotine trimmer for DIN A4 with folding security protection screen

6532	Cutting length: 320 mm
------	------------------------

**Material:** Shock-resistant polystyrene cutting table

- ▶ Fold out safety guard
- ▶ Adjustable, lockable paper centring device
- ▶ Ergonomically-shaped cutting blade handle

## ROLL CAT®

These table-top rotary trimmers have a very wide range of applications. They make light work of cutting laminated film and all other materials which can be cut.

- ▶ Self-sharpening high-precision circular blade in hardened steel
- ▶ Lower knife made of ground spring steel
- ▶ Safety cutting head
- ▶ Precision cutting thanks to sprung blade bearing
- ▶ Cutting possible in both directions

- ▶ Stable, smooth-running guide rail made of aluminium
- ▶ Distortion-free cutting table in aluminium or shock-resistant plastic with cm/inch scale markings and all customary formats
- ▶ Integrated paper clamp at the cutting edge to hold material to be cut in place

### ROLL CAT® Basic Line

6332	Cutting length: 320 mm
------	------------------------

**Material:** Shock-resistant polystyrene cutting table

### ROLL CAT® Premium Line

6832	Cutting length: 320 mm
------	------------------------

**Material:** Shock-resistant polystyrene cutting table, black or white

- ▶ Completely enclosed safety cutting head, easy to change
- ▶ Guide rail in extra-rigid aluminium
- ▶ Handle for easy transport and simplicity of handling
- ▶ Adjustable, lockable paper centring device

#### Accessories:

- ▶ Cutting mat plus Perforation cutting head **6823**
- ▶ Cutting mat plus Wave Cut cutting head **6813**

### ROLL CAT® Premium Line

6732 (Image)	Cutting length: 320 mm
6726	Cutting length: 260 mm
6746	Cutting length: 460 mm
6752	Cutting length: 520 mm

**Material:** Aluminium cutting table

- ▶ Guide rail in extra-rigid aluminium
- ▶ Completely enclosed safety cutting head, easy to change

#### Accessories for 6732:

- ▶ Cutting mat incl. base plus Perforation cutting head **6723**
- ▶ Cutting mat incl. base plus Wave Cut cutting head **6713**

#### Accessories for all cutting lengths:

- ▶ Cutting table extension with paper stops **6704**

## Green Office

**Good for the office, good for the planet** – at Möbius+Ruppert we are constantly researching and developing ways to combine the two. Our Green editions use wood, cornstarch and recycled materials in their production. Once again, we see that quality products of quality materials can be made in harmony with nature.

## ECOLOGICAL AND SUSTAINABLE

Möbius+Ruppert paid attention to ecological, sustainable production before it was fashionable. We've added to our product range with the ECO EDITION, which is made of inhouse recycled materials.

0400

► Beechwood sharpener, for lead pencils, single hole, untreated

0411

► Beechwood sharpener for lead and coloured pencils, double hole, untreated

### NATURALLY WOOD

Wood is a natural, self-renewing material. Our beechwood is untreated and sourced from European forests.

**Material:** beechwood

## GREEN LINE & ECO EDITION

Sharpeners made of organic and ecological materials, for the good of the environment. At Möbius+Ruppert we're moving ahead on sustainability and environmental protection in two ways. One is the use of renewable materials, such as the cornstarch we use to make our GREEN LINE Series products. The other is the use of production waste to make the QUATTRO SWING® ECO EDITION products.

### SHARPENERS AND RULERS OF CORNSTARCH

The GREEN LINE Series was developed with sustainability in mind. The rulers and the sharpeners housing are made of a tough yet biodegradable cornstarch-based material.

0990 0810

GREEN LINE Collection

- Combination of GREEN LINE sharpeners 0919 and 0938 and rulers 1130, with display (cardboard)

0919 0810

GREEN LINE ELLIPTIC SWING®

- The Green Line container pencil sharpener is also available as a single hole sharpener

0938 0810

GREEN LINE ELLIPTIC SWING®

- The Green Line container pencil sharpener, double hole, made of biologically degradable, recyclable material, with integrated metal sharpener

### RE-USING PRODUCTION WASTE

After extensive development and testing, we have been successful in repurposing the waste materials from our production processes to make our ECO EDITION, while adhering to our high quality standards. The M+R QUATTRO SWING® sharpener is now available in the ECO version. We naturally pass the raw material savings on to you. This environmental edition is distinguished by the unique marbled structure of each cap.

0924 0650

QUATTRO SWING® ECO

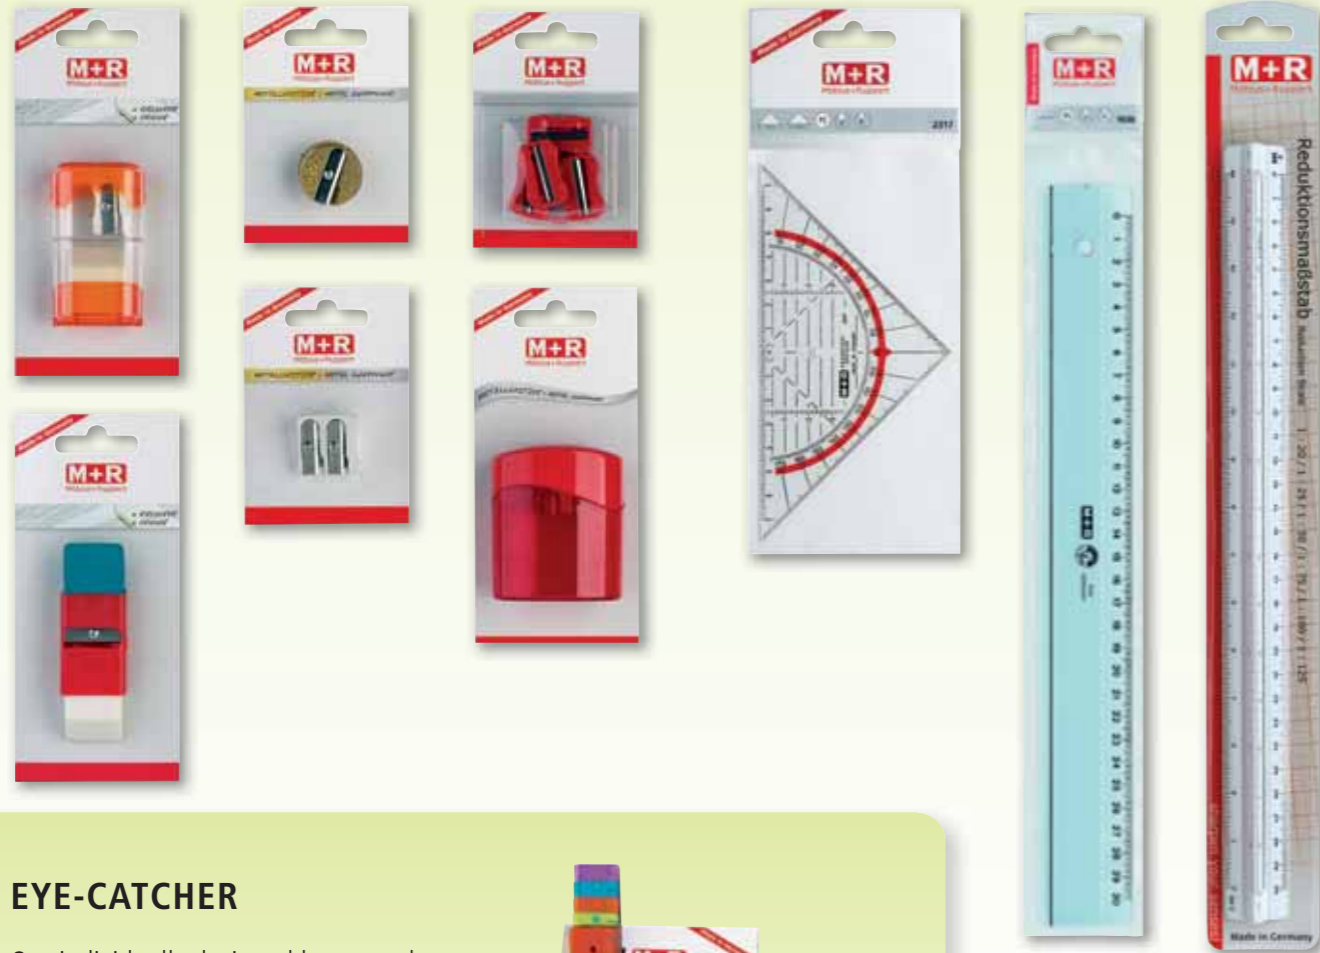

- Container sharpener for lead and coloured pencils, double hole, made of recycled polystyrene, with integrated metal sharpener

# RIGHT FOR THE JOB, IN THE RIGHT PRESENTATION

Depending on how you need them, you can get Möbius+Ruppert products individually packaged in blister packs or cases. We deliver container sharpeners in the practical box that also functions as a countertop display. We also offer displays to match special editions or individual motif editions.

## EYE-CATCHER

Our individually designed boxes and displays are also suitable for counter-top presentation.
